

## EXPECT TAFT TO INTERVENE MAY 1

Member of Revolutionary Junta So Notifies  
Leader of Insurrectos, by Courier  
URGES THE CAPTURE OF CHIHUAHUA

Tells Madero There Must Be a Decisive Victory to  
Avoid Intervention—Has Been Investigating at Wash-  
ington—Another Report of Americans Being Fired  
Upon, Doubled by General Duncan.

San Antonio, Tex., March 23.—With the call for six or seven thousand recruits, the issue of an order by General Carter making provisions for a sudden move, should it be required, and a statement by Dr. C. F. Carlieri, of the Mexican revolutionary junta that "the United States will intervene in Mexico unless there is a definite show of tranquility by May 1," the recent disturbance war cloud loomed larger today.

**Madero Warned to Get Busy.**  
Dr. Carlieri felt sure enough of his facts to embody them in a report to Francisco I. Madero, the revolutionary leader, who, the latest report had it, was within thirty miles of the city of Chihuahua. Dr. Carlieri urged the insurgent leader to achieve a decisive victory at all costs by May 1, for, he wrote, "President Taft will not be longer than that for quiet to be restored, business resumed and traffic over the railroads to be secure."

The courier who brought the report today with Dr. Carlieri's letter. It is not an order, for Madero is the supreme leader, but it is in the nature of a report on the meaning of the mobilization of American troops in Texas.

**Carlieri Has Been Investigating.**  
Most of Dr. Carlieri's investigating was done at Washington, though he visited El Paso and Laredo before coming to San Antonio. An inkling that something unusual was afoot reached him some time before the famous Paris interview with Jose Yves Limantour, Mexican minister of finance, and he proceeded at once to Washington. In an interview today he said:

**Knows Taft is Determined.**  
"Of course, a complete federal triumph in Chihuahua, the restoration of communications and other business likewise would be a great help to know absolutely that President Taft is determined that order shall be restored and quickly, by one side or the other, in Mexico, with the alternative of intervention."

**Hopes for Recognition of Insurrectos.**  
"In my report to Senator Madero I pointed out the necessity of capturing and holding the state of Chihuahua. Of this can be accomplished, I am convinced that the revolutionary junta will be recognized as legitimate by the United States and other governments."

**Neither Side Wants Intervention.**  
"I have reason to believe that May 1 is the date set for the termination of President Taft's patience with the disorder south of the Rio Grande. Neither side wants intervention, and I believe firmly that federal and revolutionary would make common cause against an invader."

**The financial interests of the United States in Mexico are immense and that of Europe are greater in a money sense than those of Mexico."**

**Americans Fired on Again?**  
General Duncan is very skeptical about another report arriving today that American soldiers have been fired upon by Mexican regulars on duty across the river from Ojinaga. A telegram was received from a subordinate government official today reporting the alleged occurrence, and adding that the Americans were compelled to seek shelter.

**General Duncan Doubts Story.**  
General Duncan said he had received nothing official as yet and he doubted the story very much. He said, however, that he had reported the matter to the war department and was continuing an investigation.

**Madero Issues Another Decree.**  
Washington, March 23.—All persons in any way connected with the promulgation or enforcement of the recent suspension of constitutional guarantees by the Mexican government will be held personally responsible as homicides by the insurgent government, according to a decree of Francisco I.

Madero, the provisional president, issued today through his representative here, Dr. Vasquez Gomez.

**Suspension of Guarantees Unlawful.**  
The decree sets forth that the suspension of constitutional guarantees as affecting the safety of human life is not lawful according to article 29 of the Mexican constitution, which provides for the suspension of constitutional guarantees in all cases except those in which human life is at stake. The decree contends that "no authority or power in Mexico can suspend the constitutional guarantees which assure the lives of men, natives or foreigners, whatever be their nationality."

**Nervousness at Juarez.**  
Juarez, Mexico, March 23.—The people of Juarez were kept at a high nervous tension today by knowledge that insurgents had been seen near the city in large numbers and by reports that an attack on the place was to be made. A general revolutionary movement which included an attack on Chihuahua City, 225 miles south of here.

**Insurrecto Band Appears.**  
A band of insurrectos appeared along the Rio Grande opposite Socorro, Texas, fifteen miles east of Juarez, and then disappeared. As soon as he heard of it, General Navarro sent out a troop of cavalry. It was reported that 250 insurrectos were in the band.

**Rurales Invas United States.**  
Presidio, Texas, March 23.—That a company of Mexican rurales from the besieged garrison at Ojinaga, while on a scouting expedition invaded United States soil, has been reported to Captain Williams of Troop H, Third Cavalry, in command of the United States troops stationed at Presidio. Captain Williams is investigating the report.

According to a dozen or more informants, 70 rurales, bearing arms, crossed the river west of Ojinaga and traveled over United States territory for several miles to the rear of the insurgent position.

**Strained Relations Between Customs Officers.**  
Relations between American and Mexican customs officers are daily becoming less harmonious.

Yesterday bullets, said to come from Mexican federal rifles, fell among a detachment of United States soldiers. Whether the firing was intentional has not been determined.

**Names of American Prisoners Not Disclosed.**

Casas Grandes, Mexico, March 23.—Some of the names of the prisoners taken by the state department at Washington towards the protection of Americans in jail here is eagerly awaited by the prisoners. Of the 17 prisoners classified as insurrectos, two are Germans, one is an Italian, and fourteen say they are citizens of the United States. The men are apprehensive that they will be kept in jail indefinitely and will not have trials until after the war.

**Are Being Well Treated.**  
Juarez, Mexico, March 23.—United States Consul Edwards said tonight he had received reports giving the names of the American prisoners taken by Casas Grandes. His only instructions from Washington, he said, were to find out whether the men had been shot. He had received assurances that the men were alive and were well treated.

## COMPLAINT AGAINST UNITED STATES CONSUL

Also Against the Surgeon General of Trinidad.

New York, March 23.—Thirteen passengers from the British liner *Tennison*, which reached New York yesterday from Brazilian ports via Trinidad and the Barbados, announced today that they had prepared protests to be forwarded to Secretary Knox and the Earl of Crewe, secretary of state for the colonies, in London, against the alleged action of the surgeon general of Trinidad and indifference of Franklin D. Hale, United States consul there.

**Smallpox Patients Rejected.**  
The surgeon general is charged with refusing to permit the *Tennison* to place two smallpox patients from the ship's steerage in quarantine at Port Au Spain. His answer to the captain's request, the passengers assert, was that there was no danger of smallpox in the city and that the authorities did not want the added danger of smallpox.

Consul Hale, when appealed to by American passengers, it is alleged, sent word that he could do nothing. The Americans felt that he should have visited the vessel or sent his representative. The *Tennison* barred from Port Au Spain, placed its two infected passengers in quarantine at Barbados, making the voyage, it is charged, at great risk to infection to the passengers. Signs of the protests include Christobal Vallin, Spanish minister to Cuba.

## THE OLD TEXAS NOW OUT OF COMMISSION

So Thoroughly Riddled She Can Be Used No More for Naval Purposes.

Washington, March 23.—Two broadsides from the battleship *New Hampshire* today put the old Texas, a Spanish war prize, out of commission. Had the ship been an enemy, she probably would have ended almost before it began, so accurate was the aim of the guns of the *New Hampshire* in Chesapeake bay the week before last. This is the opinion of the naval and ordnance officers who returned to Washington today.

**Intention Was to Refloat Her.**  
Anchored on a flat which allowed her only two feet in which to settle, it is conceded to be an open question whether the damage would have sent the ship to the bottom had she been in deep water. The intention of the navy department was to refloat the *Texas*, which was under way and her in the fleet practice to be held off the Virginia capes early next month.

The board in a preliminary and unofficial report declared that the effects of the *New Hampshire*'s fire was so astounding as to leave the *Texas* merely a mass of metal and a few minutes after she was carried into the operating room. An examination of Cavanaugh's wounds showed them to be only slight and will be taken later to the jail when his condition will permit.

HARTFORD ADDS ONE TO CONNECTICUT'S MURDER LIST.

VICTIM DIED AT HOSPITAL

James F. Cavanaugh, Accused of Crime, Also Has Two Wounds—Police Doubt Man's Story.

Hartford, Conn., March 23.—One more murder was added to the list committed in the state in the last few weeks tonight when Mrs. Lillian Burns died in the Hartford hospital from the effects of two bullet wounds in the head. James F. Cavanaugh, who the police say did the shooting, but who denies it, is in the same hospital with a superficial wound in the scalp and a bullet hole in the left hand.

**Deadly by Her Husband.**  
Mrs. Burns, who is said to be the wife of a railroad man, has been living at a boarding house on Russell street and it is alleged, was deserted by her husband three weeks ago. Her age is given as 21 years. Cavanaugh is an employee of the New York, New Haven and Hartford railroad, and for a year has been boarding at 90 Ann street, is 31 years old. Where he came from to this city is not known.

**Shooting in Cavanaugh's Rooms.**  
Cavanaugh met Mrs. Burns, the police say, about two months ago, and she took her to his boarding house and told her his landlady that he wished to take her to his room for a few minutes, as he was going to leave the city and wished Mrs. Burns to have some of his belongings. They went upstairs and a few minutes later revolver shots were heard. Several roomers in the house rushed up to Cavanaugh's room, which is on the third floor, but found the door locked.

**"Jealousy Did This," Said Cavanaugh.**  
It was broken in and the two were found lying on the floor. Mrs. Burns was unconscious, but Cavanaugh was conscious when the door was broken in, said: "Jealousy did this." The revolver with which the shooting was done was lying at his feet.

**Man's Injuries Not Serious.**  
The two were taken immediately to the Hartford hospital, where it was found that Mrs. Burns had been shot twice, one of the bullets entering the back of her head and the other the side of her head. A few minutes after she was carried into the operating room. An examination of Cavanaugh's wounds showed them to be only slight and will be taken later to the jail when his condition will permit.

## Cavanaugh's Version of the Affair.

According to the story which Cavanaugh told the police, and which they say they do not believe, the shooting was done during a struggle for a revolver. As soon as Mrs. Burns entered his room Cavanaugh says she went to his bureau and took a revolver from the drawer and said: "It is either you or the other." He grabbed her, he said, and in the struggle which followed he received his wounds and then she shot herself.

**Bullet in Ceiling of Room.**  
This, the police say, cannot be so, drawing attention to the wound in the back of the woman's head. The bullets which the police say he intended for himself were found in the ceiling of the room.

When the police made a search of Cavanaugh's effects they found a note in a drawer of a bureau which was addressed to the police and which he had written in his handwriting. The note read as follows:

**Note in Cavanaugh's Pocket.**  
"Van, Dear Old Pat: You and Charlie Baker, goodbye. Wish you both knew, but new director is a native son. I'll get the insurance and instruct her to pay Mrs. Ahearn \$10."

The Mrs. Ahearn mentioned in the note was the woman with whom Cavanaugh had been taking his meals. Cavanaugh will probably be given another questioning by the police in the morning.
